

Explorer™ TV Accessory – Soundbar Mount

Assembly Instructions

Model: ETCSM-SB

Included:

Sound Bar Mount

030-2322
2.5" Carriage Bolt (x2)

030-2323
Locknut (x2)

1/2" Wrench (x1)

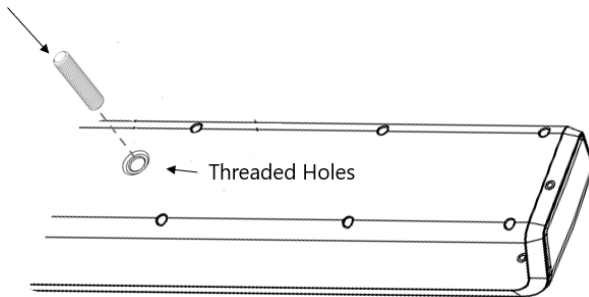

044-5668
Sound Bar Hardware (x1)

Mount is compatible with soundbars featuring mounting holes spaced between 4.5" and 18" apart.

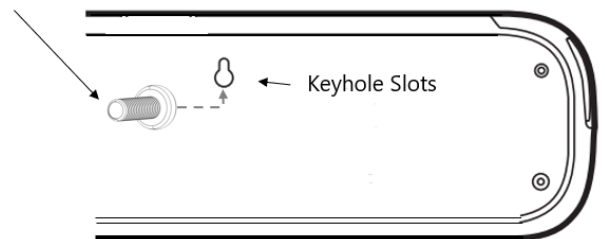

- 1. Prepare the soundbar by attaching the hardware that is appropriate for the type of mounting holes:**

M5 Set Screw

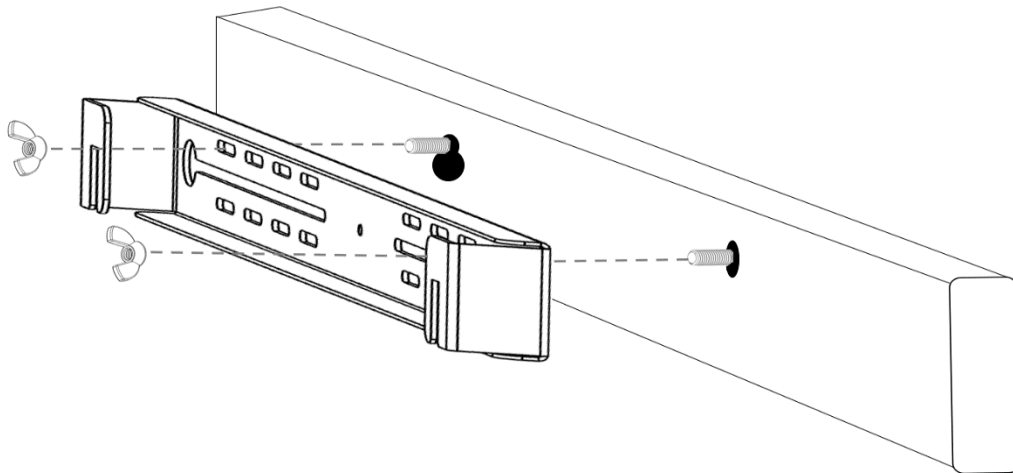

Threaded Holes

M5 Phillips Screw

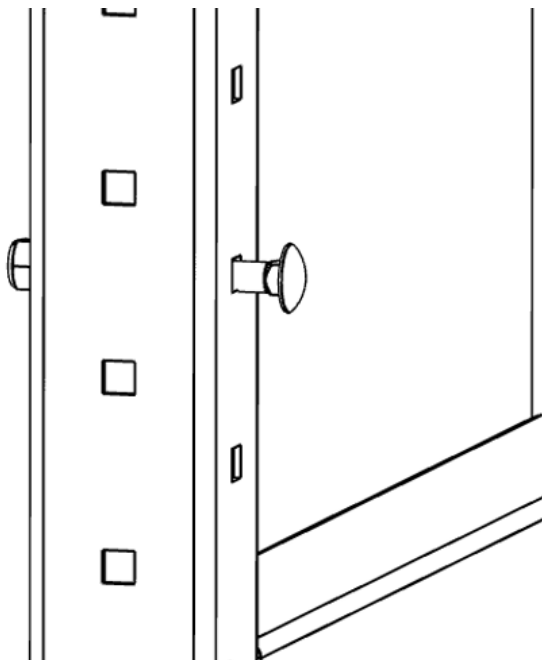

Keyhole Slots

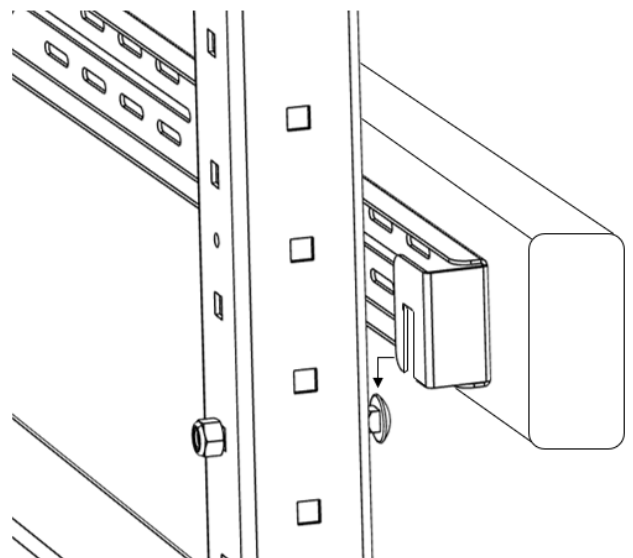

- (a) For soundbars with threaded holes install the set screws.**

2. While the mounting bracket is still separate from the cart, guide the attached screws through openings in the bracket, then secure with wingnuts.

3. Insert the carriage bolts at desired height on the frame, but do NOT completely tighten the bolts.

4. Slide the bracket with soundbar attached over the carriage bolts, then tighten nuts with wrench.
