Quick Start Guide

Bang & Olufsen Cisco 950

Models: Webex/UC (HS-WL-950)

Microsoft Teams (HS-WL-950Q)

I. DOWNLOAD THE BANG & OLUFSEN APP

Bang & Olufsen

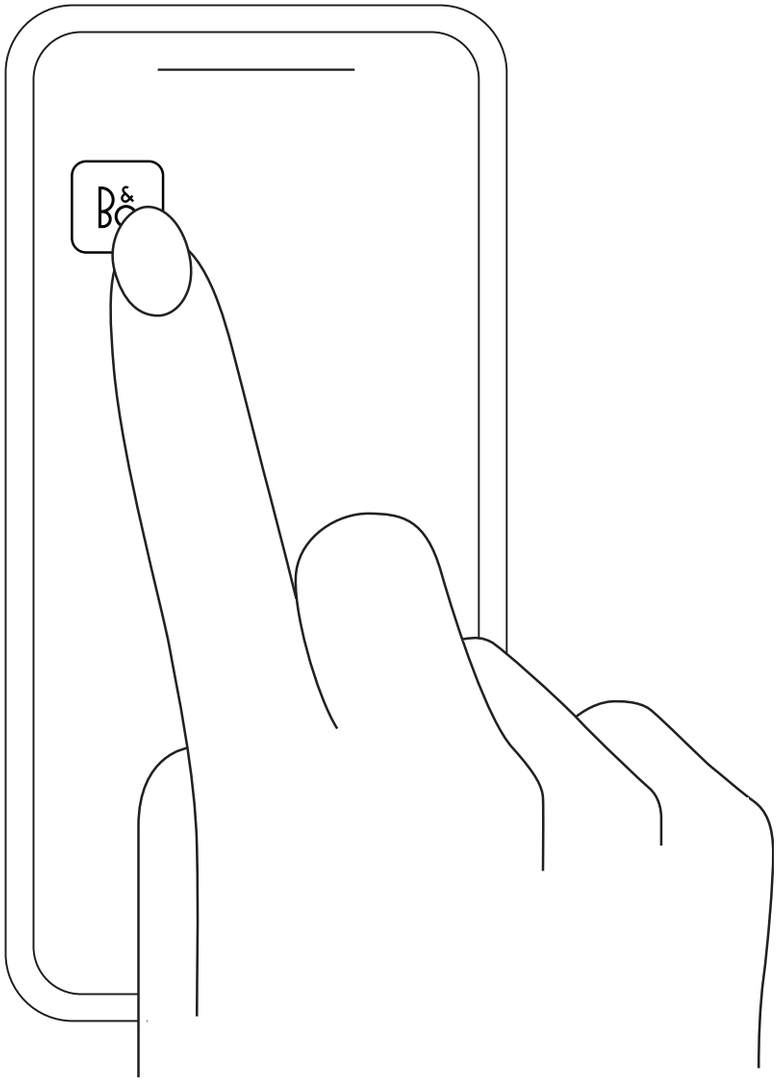

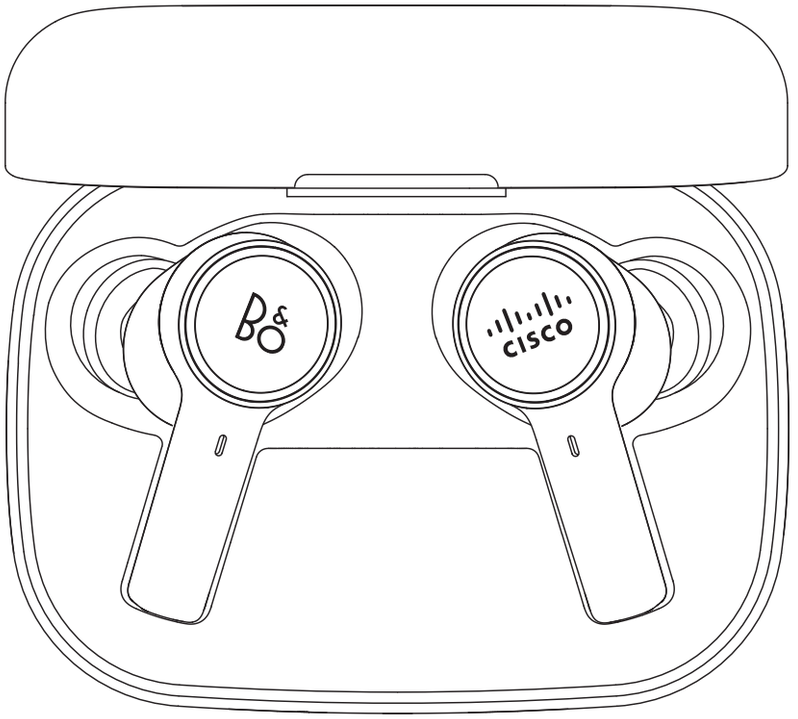

II. SET UP IN THE BANG & OLUFSEN APP

Product tutorial, settings, features and software updates

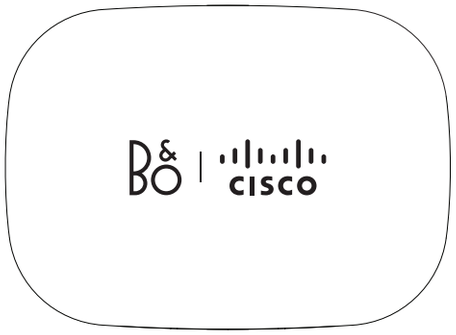

III. OPEN CASE FOR AUTOMATIC BLUETOOTH PAIRING

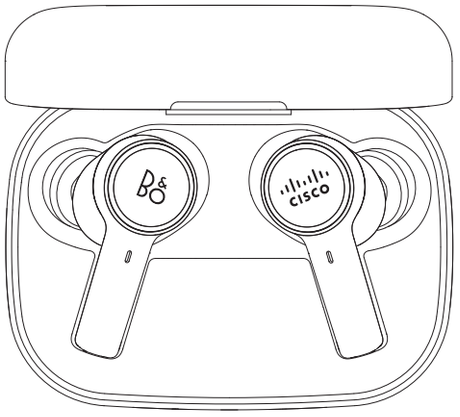

When opening the Charging Case lid for the first time, the earbuds automatically go into pairing mode.

BLUETOOTH PAIRING WITH ANOTHER DEVICE

1.

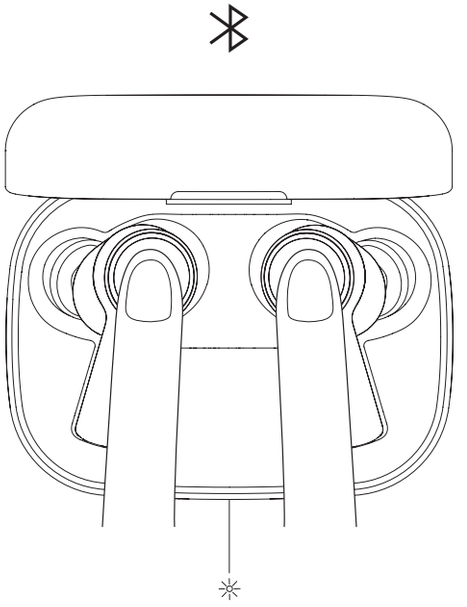

2.

Wait until LED turns off

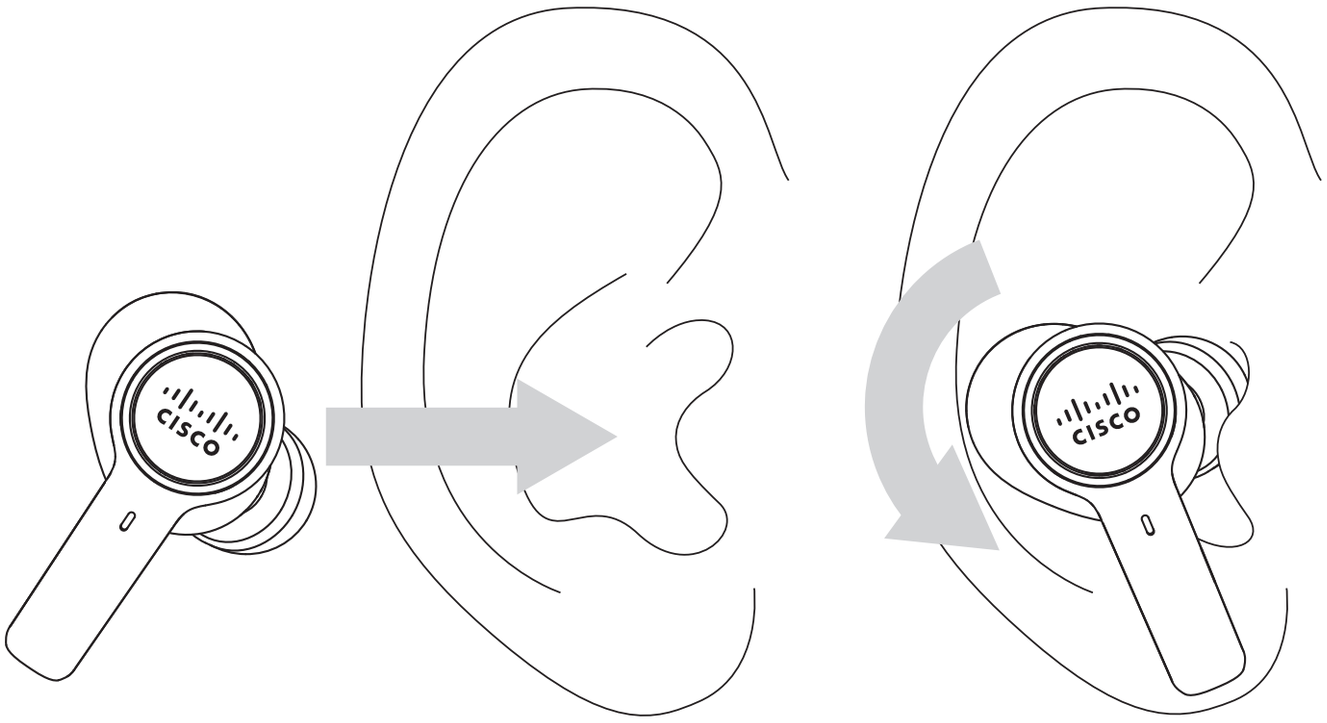

3.

Tap and hold (5 secs)

Follow these steps to connect to another device after first time pairing. After 5 seconds, the LED will flash blue, indicating that your earphones are in Bluetooth pairing mode.

INSERT EARBUDS

Inside the box, you find different sizes of eartips. Pick the ones that fit you best for maximum comfort. Remember, the earbuds automatically connect to your latest device via Bluetooth when removed from the charging case.

The Microsoft Teams certified experience requires a connection via the Cisco USB Adapter. This allows for the earbud call and Microsoft Teams specific controls to work with Microsoft Teams.

Microsoft Teams Support

Only for the Microsoft Teams Model

CISCO USB ADAPTER

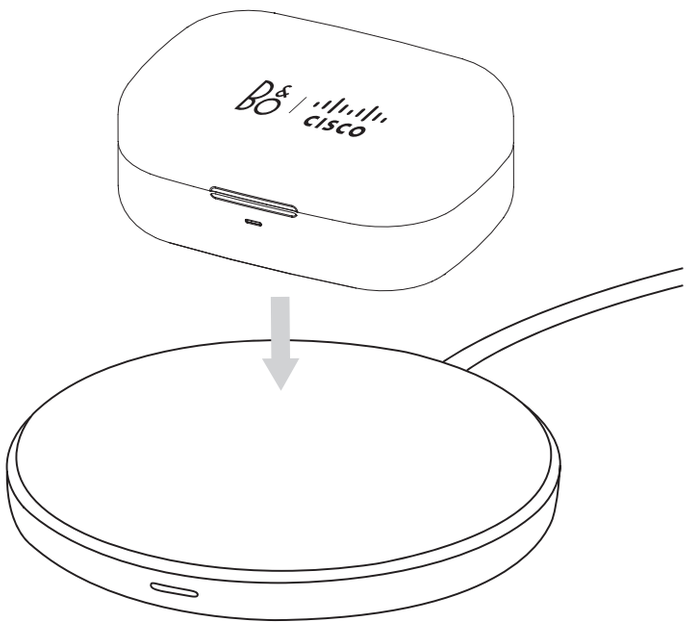

Insert the Cisco USB Adapter, take the earbuds out of the charging case, and wait a few seconds until paired. The adapter shines with a solid blue light when paired.

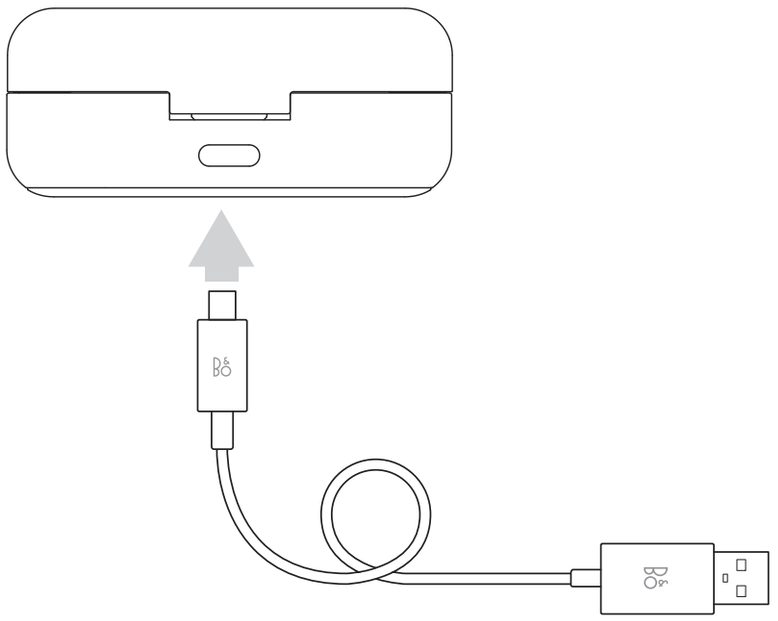

Webex/UC (HS-WL-950-BUN-C) (HS-WL-950-BUN-DG)	Microsoft Teams (HS-WL-950Q-BUNA-C)
Compatible with the Cisco USB Adapter and available to purchase as an optional, spare accessory. The earbud controls work via native Bluetooth with Webex – the adapter is optional.	The Cisco USB Adapter is included in the box and comes pre-paired with the earbuds. Microsoft Teams requires to connect via the adapter for call control and specialized Microsoft Teams controls integrations.
